

Case Study: Costain

Contract: Formwork, Reinforcement & Concrete to Bridge Structures, Pembrokeshire, South Wales

The Situation

Costain were looking for a specialist formwork, reinforcement & concrete contractor with excellent health, safety and quality reputation.

The Solution

Trueform provided all of the necessary skilled labour, formwork and falsework design calculations. Through collaboration Trueform were able to overcome design and programme issues as the contract rolled out.

The Benefits

Trueform's experience and quality assurance systems ensured that the contract was completed on time and within budget to the highest standards.

"Trueform formed an extension of our team and helped to ensure the project achieved an award for constructing excellence"

Dave Morris, Structures Agent
